

# DVDO Air<sup>3</sup>

## Key Features

- 60GHz Wireless Technology:
  - Low latency ideal for gaming and interactive video
  - Free from Wi-Fi Interference
- 1080p60 MHL Connectivity
  - CEC to RCP for connected MHL device
- 7.1 HD Audio
- 3D Support
- CEC pass through
- Ease of installation: 10+ mounting options
- Low power consumption

## DVDO Air<sup>3</sup>™, 60GHz WirelessHD® Adapter

### Experience HDMI® & MHL® without Cables

The Air<sup>3</sup> is the first wirelessHD adapter delivering HD content not only from HDMI sources but also from MHL-enabled smartphones and tablets to a big screen. Based on 60GHz wireless technology, the Air<sup>3</sup> transmits HD content up to 10 meters in room without any interference, providing a cable-like reliability and quality.

Air<sup>3</sup> is ideal for gamers and home entertainment enthusiasts needing a higher frame rate (up to 1080p60) to play their favorite mobile games or watch action-rich video content on a big screen without worrying about latency. Designed with “hide-behind-the-TV” thinness and over ten mounting options, the entire setup process is effortless.

### 60 GHz WirelessHD Technology for Gaming

Air<sup>3</sup> is based on 60GHz wireless technology which allows the reliable wireless delivery of HD content between HDMI or MHL source and a display. Its intelligent RF beam-forming technology creates a cable-like quality connection without wires and eliminates the interference associated with Wi-Fi-based solutions.

### MHL Connectivity

Mobile High-Definition Link (MHL) 1080p60 support on Air<sup>3</sup> allows the user to mirror the content of their MHL-enabled smartphone or tablet on large screen displays, while charging the mobile device at the same time.

### Full HDMI DTV Connection

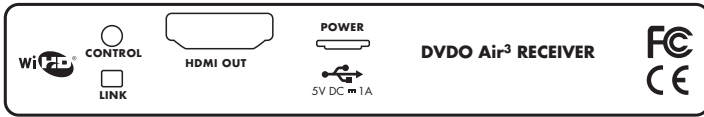

All wireless A/V systems are not created equal. 5GHz-based systems sacrifice picture quality by compressing the signal to fit within the limited bandwidth. They are also susceptible to interference from cordless phones, Wi-Fi and even microwave ovens. Air<sup>3</sup> avoids these problems by using the 60GHz frequency band and transmitting data up to 4Gb/s.

### Effortless Installation

With over ten mounting options, Air<sup>3</sup> is specifically designed to be easy plug and play. It provides a clean look to your home entertainment area.

## Technical Specifications

<b>HDMI<sup>®</sup></b>	
Transmitter Unit	1
Receiver Unit	1
<b>Maximum Video Resolution</b>	1080p60
<b>Audio Formats</b>	7.1ch HBR/PCM audio up to 192kHz, Dolby/DTS 5.1 up to 48kHz
<b>Wireless Standard</b>	WiHD 1.1 (60 GHz)
<b>Range</b>	35 ft (10 m)
<b>Power Supply</b>	Transmitter: 5V/3A Receiver: 5V/1A Both 100-240VAC @ 50/60Hz
<b>Active Power</b>	Transmitter: 3W Typ. (Plus up to 10W for phone charging) Receiver: 3W Typ.
<b>Mounting Options</b>	Two included brackets for back-of-TV/Wall/Ceiling mount with included adhesive and screws
<b>Dimension (L x W x D)</b>	
Transmitter Unit	4" x 3.5" x 1"
Receiver Unit	4" x 3.5" x 1"
Package	10" x 5" x 5"
<b>Weight</b>	
Package	2.5 lbs

### All-In-One Solution Includes:

- DVDO Air<sup>3</sup> wireless transmitter with AC power supply
- DVDO Air<sup>3</sup> wireless receiver with AC power supply
- DVDO Air<sup>3</sup> behind-the-set wall/TV mount bracket (2)
- Adhesive pads
- Mounting screws
- HDMI cables (2)
